In the above plat the black lines and black numbers show the original block and lot lines and lot numbers as designated by the recorded plat. The red lines and red numbers indicate, respectively, the tract boundaries and tract numbers where said tract boundaries do not conform to the original lot lines. Each separate piece or parcel of land owned in the above block is considered a tract, and, except as otherwise noted in red, as hereinbefore stated, the lot numbers and tract numbers are the same.

Subdivisions of Tracts specified below, as shown on above plat, were made in the respective years specified, before assessment time expired for said years, or in preceding years, and tracts formed by said subdivisions were given numbers as shown. Tracts formed by the subdivision of any tract formerly shown, take new numbers next higher than the highest tract number shown by plat, and the old numbers of tracts subdivided are not recognized in assessments made subsequent to subdivision.
(Where colored inks are used in the above plat, tract numbers and tract boundaries for the same tract are shown in the same color.)
